SHEEP BREEDING

DESCRIPTION OF THE IDEA

- The community has free land plots for pastures.
- There are no sheep grazing farms in the community.
- The community's agricultural producers have enough grain crops to feed animals.
- There are qualified veterinarians.
- There is a great demand for meat.
- Available markets, including exports.
- Availability of a railway station (passenger/freight).
- Available government grant programs aimed at supporting and developing business.
- Livestock production has a great strategic importance in terms of providing the population with food.
