Copyrights© to this catalogue belong to IDROBASE GROUP® Srl. Reading, reference and dissemination in paper or electronic formats for personal use are permitted. Use for commercial purposes is not permitted, nor is any type of alteration except with the written consent of IDROBASE GROUP® Srl.

This catalogue cancels and supersedes the earlier version.

This catalogue provides general information on the products supplied by IDROBASE GROUP® Srl.

It is intended for retailers, system engineers, designers and more generally, all those who are already adequately familiar with said products, the materials from which they are made, their characteristics, efficiency and operation; it is therefore not intended for consumers who, in order to handle, install or perform any operation with the goods described here, must necessarily contact qualified and skilled personnel.

Also, with regard to skilled personnel, this catalogue should be considered a mere commercial tool, not containing the necessary technical specifications - which may be obtained free of charge from Idrobase, and as such, not suitable for use as a single go-to reference tool for the design, construction or installation of any kind of system.

The illustrations, technical characteristics, functions and other information given here about individual products, systems, installations and the like are based on the current state of the art; however, only the most immediately applicable information can be reproduced here, without any consideration for the global data necessary to design, implement and install any system, which must therefore be carefully assessed by designers, system engineers and installers.

Therefore, for specific indications on all products in the catalogue, please contact our main office, where competent staff are always on hand to answer any additional queries.

All the illustrations reproduced here may be slightly different from actual products and therefore, they should simply be intended as closely representing real items.

We reserve the right to introduce changes in all the products. For this reason, too, it is advisable to directly contact our main office.

In case of doubts regarding interpretation, the original Italian text will prevail.

When a new reprint is published, the present edition will no longer be valid.
